## Erratum

After the publication of this paper the authors noticed a few errors in the text. There are outlines below:

1. Results section, under Hamilton depression rating scale (HDRS): In the sentence '**Nineteen** trials reported only mean HDRS change scores or presented a graph showing the mean change HDRS scores, but did not report the SD' **Eighteen** should replace **Nineteen**
2. Results section, under Hamilton depression rating scale (HDRS): In the sentence 'Random-effects meta-analysis of the results of all **92** trials showed that SSRIs versus placebo significantly reduced the HDRS score (mean difference  $-2.25$  points; 95% CI  $-2.69$  to  $-1.83$ ;  $P < 0.00001$ )' **91** should replace **92**
3. Results section, under Other subgroup analyses: In the sentence 'Meta-analysis of the results of the **26** trials with a mean baseline HDRS score  $> 23$  points showed a mean difference of  $-2.69$  HDRS points; 95% CI  $-3.59$  to  $-1.78$ ;  $P < 0.00001$ ' **25** should replace **26**
4. Table 2 [Summary of serious adverse events in the included trials] '**Nemroff** et al., **2005**' should read '**Nemeroff** et al., **2007**' and in the same line '**Fluxetine**' should read '**Fluoxetine**'
